Notes: Bill had asked me to do a quick lettering poster for
these shows, as the artist that was working on the regular poster
BG276 was running late getting it to the printer. This is how the
straight information poster started for Bill Graham Presents in San
Francisco. I believe it's the first infomation type poster for the
Fillmore West, Winterland, Civic Auditorium. Bill needed this right
now! I didn't have any time to do this so I just used the formula
lettering that I had been using as I was very busy with other
posters, so it had to be simple. There was only a poster produced in
very limited number until the offical poster came out with handbills
and all, There was no handbill produced of this image.

Eddie Money, Tommy Castro Band at Fillmore West - San Francisco, CA

Notes: DANCE MACHINE, unpublished poster, cancelled show
...it seemed like Bill was always planning a big show and then pull
out at the last minute, but to help Bill promote his show. The
Herbst Theatre's manager offered the massive theatre free of charge
to Bill. this is one of 24 posters & handbills that I planned to
create for him.

Leftover Salmon, Sweet Virginia at Fillmore West - San Francisco,
CA
Notes: Leftover Salmon @ Fillmore. Accidentally, I trashed the
whole art piece on my computer late at night! I had to rebuild it
almost from scratch within a 2-day deadline. I was relieved that it
came out looking the same as I remembered the first one, but the
whole ordeal almost floored me, and kept me working round the clock.

Tom Petty at Fillmore West - San Francisco, CA

Notes: I had been doing a few Fillmore rock posters for Bill Graham Presents when Arlene, the art director, asked me to do a four poster series for Tom Petty and the Heartbreakers! I was stoked! I gave her a list of 25 subjects to choose from. They chose Pan, Mermaid, Bachas, and Temptress. I got right to work on the first poster. After I finished it, they informed me of a postponement as Tom Petty had an injury to his hand, I heard from slugging a wall. The poster was on hold. -- Jim Phillips

Notes: The Petty 2 Mermaid was drawn flat on my back, fresh out of the hospital with a broken pelvis. By the time the sketches were approved I was afraid I wouldn't be able to sit at my computer for

In the beginning of what was to become "The Sixties," there were a
series of dances put on by Family Dog in San Francisco that
eventually settled into the Avalon Ballroom. For a brief, but
exhilarating two year run, the dancehalls of the Family Dog and its
competitor Bill Graham at the Fillmore Auditorium were the focus of

a new sense of community among younger people that marked the birth of an era in our cultural history that is indelibly engraved in our social memory, one that will probably be written about centuries from today. It was more than a dance craze; it was more than a drug craze. The results of that time echo today throughout our society, through an interest in natural and organic foods, natural healing and preventative medicine, spiritual awareness, home schooling, home birth, and a host of other spin-offs that continue to reverberate. It is a fact that those same alternative-culture youths single-handedly walked in the back door of society and took over what has become our principal means of communication, the Internet. It was conceived and is run today mostly by hippies, albeit now, well-paid hippies.

The poster art that was created during that time is a visible reminder of those days, as vibrant and communicative as it ever was. These handbills, cards, and posters advertising the next dance could be found plastered over many a wall and ceiling back in the day. Today, a lot of these same posters are rare items, keenly sought after, and highly prized. And they have appreciated in value. Poster that cost \$1 back then can fetch thousands now. The nostalgia is wearing off these items, leaving the historical and artistic value very much intact.

There has not been another complete set of Family Dog or Bill Graham original posters, handbills, and cards of this quality on the market for many years. This set is now available to the right investor. A complete inventory of this collection is available for your scrutiny.

A Brief Introduction to the Family Dog and Bill Graham Series
Between the years 1966 and 1971, a number of promoters produced weekly psychedelic rock concerts in San Francisco. Foremost among these were the Family Dog Presents (Avalon Ballroom) and the Bill Graham Presents (Fillmore Auditorium). Together they produced over 440 concerts, each of which was advertised by a sequentially numbered image, which was printed in both large (poster) size and small (postcard or handbill size). Altogether some 70 graphic artists were involved, many of them now almost legendary. Virtually every famous rock star of the time appeared on these posters, handbills and postcards, and these images have become renowned throughout the world as the best example of psychedelic rock-concert poster art.

Individual items from these series appear in numerous museums and are sought after by collectors the world over. The few existing complete sets of original printings, which are less than thirty and probably fewer than 25 such, are among the great collections in

modern graphic art. One of these sets is in the possession of the Rock n' Roll Hall of Fame in Cleveland, Ohio, and others are expected to be purchased by museums in the future. But today, most sets are still in the possession of private investors.

Because of the rarity of certain images (press runs of early items were 1,000 or less), it is extremely unlikely there will ever be more than a handful of additional complete sets, which took those collectors or their agents hundreds, if not thousands of hours (years of work) to complete. Over the years, these sets have performed extremely well as investments, and although it is impossible to predict the future, they are expected to continue to do so.

The following sets are hereby offered for sale. And they are not hastily assembled collections. Not only are these all originals, but both of these sets were collected and authenticated by Eric King, perhaps the most distinguished expert in these series and author of the definitive work on these posters, 'The Collector's Guide to Psychedelic Rock Concert Posters, Postcards, and Handbills 1965-1973.' These were personal collections of Mr. King and a letter of authenticity accompanies each set. King estimates that these sets are in the top 10 best sets for these items.

Each of these sets contains only original-issue posters, handbills, and postcards and each set comprises what Eric authenticates as all of the items to constitute a complete set. There are no 2nd printings, reprints, and so forth, but only the original posters. Many of these posters were signed by the artists themselves, which further increases their value. The authentication of these sets comes from Eric King and follows the guidelines laid down in his book.

Bill Graham

This set of Bill Graham Presents (original series) original posters, handbills, and cards was carefully assembled by no less an authority on the subject than Eric King, who wrote the definitive work on the subject. He estimates that this set is also among the top 10 sets in the world. There are some 289 posters, 48 handbills, and 285 cards in the set, not to mention a number of variations and variants that are included. In addition, there are 83 artist signatures in this set, signed pieces from graphic masters like Victor Moscoso, Stanley Mouse, Alton Kelley, Greg Irons, Lee Conklin, David Singer, and Bonnie MacLean. The vast majority of the posters are in Near Mint condition. This set has been stored flat in archival grade boxes, interleaved with neutral-PH paper. There are very few sets in the world in this condition and none on the market that we know of.
